

Web51 Project - Free version licence

Web51 is a complex project of connecting an Intel x51 compatible processor to a Realtek RTL8019AS network controller. The result is a very low-cost Ethernet interface. Since a well-known x51 architecture is used, even small and medium-scale businesses can now network their devices.

Web51 licensing strategy

We, the authors of the Web51 system, offer the following two versions:

- Free version Covered by GNU GPL, available for download free of charge from http://web51.hw-server.com including source codes. However, some subroutines (such as RTL8019 control) are inside a library that is distributed in binary form only. Available are several versions of the library, differing by the configured number of simultaneous TCP connections supported.
- Commercial version Includes all source codes of the project. It is not limited by GNU GPL. It is
 distributed together with our development system (our own assembler and linker). Available for
 purchase with the HW kit or separately.

Free version – covered bu GNU GPL

In Web51 project "LIBK" is the communications library called LIBK that forms a part of the Web51 project. The Web51 project is copyright (C) Radek Benedikt and HW server. This License applies to the binary, compiled form of LIBK if distributed either separately or together with other software in the public domain or licensed under the GNU General Public License (with the exceptional provision that allows such software to be linked with LIBK, if applicable).

Licence conditions

- You may copy and distribute verbatim copies of LIBK in binary form, as you receive it, in any
 medium, provided that you give any other recipients of LIBK a copy of this license along with LIBK.
 You may charge a fee for the physical act of transferring a copy, and you may at your option offer
 warranty protection in exchange for a fee.
- You may link other software (including, but not limited to the remaining portions of the Web51 project) to LIBK if and only if such software is in the public domain, or is licensed under the terms of the GNU General Public License with the exceptional provision that allows this software to be linked with LIBK.
- You may NOT reverse-engineer, decompile, or disassemble LIBK, except and only to the extent expressly permitted by applicable law notwithstanding this limitation.

You may not copy, sublicense, or distribute LIBK except as expressly provided under this License.
Any attempt otherwise to copy, modify, sublicense or distribute LIBK is void, and will automatically
terminate your rights under this License. However, parties who have received copies, or rights,
from you under this License will not have their licenses terminated so long as such parties remain
in full compliance.

• NO WARRANTY, LIMITATION OF LIABILITY

BECAUSE THE BINARY VERSION OF LIBK IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR LIBK, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE LIBK "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD LIBK PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY REDISTRIBUTE LIBK AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF LIBK TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

General
